

HAIR SPA Ellie Frankie.

TREATMENTS

NANOPLASTY

Nanoplasty is an advanced semi-permanent hair straightening and smoothing treatment that uses nano-sized particles and amino acids to deeply penetrate the hair shaft, repairing damage and altering its structure for a smoother, straighter appearance.

From \$500

KERITAIN

Keratin is semi-permanent hair smoothing treatment that uses keratin (a natural protein found in hair) combined with other chemicals to make hair straighter, shinier, and easier to manage by reducing frizz and smoothing the hair cuticle.

From \$250

REBUILDING

Biommetric Phytoprotine rebuilding treatment which repairs and returns body and texture to damaged and weakened hair.

It is the treatment system that rebuilds damaged hair caused by repeated chemical treatments, mechanical stresses, environmental aggressions and thermal instruments.

The rebuilding serum repairs the keratin chains inside the hair fibre. Supplies amino acids to hair cuticle and cortex.

From \$95

K18

The K18 peptide is designed to penetrate into the hairs inner layers to repair damage at a molecular level, reconnecting broken polypeptide chains and disulfide bonds that are damaged by things like bleaching, colouring, heat styling etc.
